

A satellite with two large solar panels is shown in orbit around the Earth. The Earth is a large, dark blue sphere with white clouds, and its horizon is lit with a bright blue glow. In the background, three moons of different sizes and colors (dark grey, brown, and reddish-brown) are visible against a black sky filled with stars. The Korean text "시작은 창대하나 끝은 미약해지기 앓길 바라며..." is centered in the lower half of the image.

시작은 창대하나 끝은 미약해지기 앓길 바라며...

Background

Background

Contents (1)

1. Background

- Middle power strategy
- Artemis Accords vs Artemis Mission
- Korea's space diplomacy

2. Define (Indicators: TBD)

- A. High Autonomy, High Capacity - BIG3
- B. High Autonomy, Less Capacity - Middle Powers(1) India
- C. Low Autonomy, High Capacity - Middle Power(2) Europe
- D. Low Autonomy, Less Capacity - Emerging nations

3. Emerging Nations - Diplomacy Models

- Regional champion, coalition building (Indonesia? Egypt?)
- Bridging, multilateralism (UAE?)
- Niche diplomacy (Saudi?)

- * (~2030) Budget planned on (1) Sovereign capacity (2) Global programs
- * Capacity matrix with strategic directions
- * Diplomacy Web

Contents (2)

4. Comparisons and Implications for Korea

- * (~2030) Budget planned on (1) Sovereign capacity (2) Global programs
- * Capacity matrix with strategic directions
- * Diplomacy Web

5. Suggestions

- Positioning Strategy
- Investment Priority
