I agree with the student having part-time job because of following two reasons. First, as students work in the real workplace, they can develop their sense of responsibility. For instance, if a student was working, and had trouble with a customer, then he need to solve the problems himself, because there is no one to back him up at the real work place. Second, students can experience a lot of different things in other word, as they experience various thing, they may find the area they are talented in, so student should learn something from the practice not just theory they learn from the school. Therefore, iagree with the student having part-time jobs.

I agree with students doing part-time job. There are 3 reasons about this. First, because students don't have much time to learn a sense of responsibility in their lives, they can learn this through part-time job. Second, by doing part-time job they can have various experiences. Third, if they are poor, they have to earn money by this. Not every student has a good environment to study or do what they want. To live, study and do what they want they have to do part-time job. So, I'm really for this theme.

I agree the problem. These days, whole the people claim their democracy life and they also expect independence. Therefore, students should have responsibility in this social society, and they need to do part-time job. And, students not have various experiences. When they become adults, if they no various experiences, they will confuse their life. Last, they should know importance of money and earning is very harder than they have thinked. They should earn for their money. Then they feel how hard the earning is. As a result, I agree the problem what students do part-time job. Thank you read my presentation.

I agree with part-time job for students. Students want to earn money for themselves, they feel that they need much more money than they used to get from their parents. There are three reasons that we should allow them to get a part-time job. First, they should feel a sense of responsibility. Second, They need to get various experiences before going into the adults' world. If they don't go into it before such experiences, they would get much more confused and distracted when they go through it. Third, they have a right to do so, we don't have any rights to prevent them from getting a job. So I agree with part-time job for students.
