

## *The MSX-BASIC games*

Programming: J. M. Jimenez

I wrote my first games in BASIC. There are some of my best BASIC games.

The first ones were published by an spanish MSX magazine, ***msxclub***, which was the best MSX magazine in the country.

### **Penalty**

I made a penalty game based on Konami's soccer.

You can play versus the MSX or two players. Each player has five shoots to goal.

You can use cursor keyboard or joystick to play

It was published at number 33 of **msxclub** magazine, on September 1987
