

Excited trip in the streets with your skate,
avoiding obstacles and other dangers.

An entire adventure in your MSX.

SKATE AIR

MegaRom 128K

THE NEW IS ...

A new type of Skate has been designed, the SKATE AIR , a skate that moves for the air.

To observe its performances, it will be carried out several trips for some streets with different obstacles.

The aim is to pick up a series of pennants distributed by the streets, before the time ends.

STAGES

There are five phases. In each phase you have to pick up 20 pennants that are distributed by tracts.

Each street has a series of obstacles and dangers that will increase in each phase.

ENEMIES

They are of different types. You should avoid their contact, because it subtracted energy to the skate.

SKATE

It is of type aircraft, and it need energy to move.

Also, it can increase their flight altitude, but this option consumes a lot of energy.

Another of its performances is the speed, able to advance to any vehicle.

EXTRAS

They appear in an aleatory way and they can be:

It recharges the energy of the skate.

It restores the Time.

Immunity during a time, and it didn't subtract energy.

Score increase.

GAME CONTROL

Cursors or Joystick.

Space/Fire: Speed Up.

Graph/Fire2: Skate Elevation.

M Key: Enable/Disable the music.
