영어 영역

제 3 교시

1. 대화를 듣고, 여자의 마지막 말에 대한 남자의 응답으로 가장 적절한 것을 고르시오.
   ① Oh, no. I want to go there.
   ② Thanks, but they already ate.
   ③ Sorry. I completely forgot about it.
   ④ Of course. I'll invite my friends tomorrow.
   ⑤ Not really. Soccer is not my favorite sport.

2. 대화를 듣고, 남자의 마지막 말에 대한 여자의 응답으로 가장 적절한 것을 고르시오.
   ① Sure. Here is your refund.
   ② Well, the shirt is not mine.
   ③ Okay. I'll get you a new one.
   ④ Right. I need an eye for fashion.
   ⑤ Impossible. It's a brand new shirt.

3. 다음을 듣고, 여자가 하는 말의 목적으로 가장 적절한 것을 고르시오.
   ① 수강 신청을 안내하려고
   ② 고별 강연 참석을 독려하려고
   ③ 교내 논문 대회를 홍보하려고
   ④ 강의 일정 변경을 공지하려고
   ⑤ 새로 부임한 교수를 소개하려고

4. 대화를 듣고, 남자의 의견으로 가장 적절한 것을 고르시오.
   ① 수업 시간에 전자기기를 사용하지 않아야 한다.
   ② 인터넷상에는 정확하지 않은 정보들이 존재한다.
   ③ 불규칙한 식습관은 학생들의 집중력을 저하시킨다.
   ④ 부모의 과도한 관심은 자녀의 학습 의욕을 감소시킨다.
   ⑤ 지나친 스마트폰 사용은 가족 간의 대화를 단절시킨다.

5. 대화를 듣고, 두 사람의 관계를 가장 잘 나타낸 것을 고르시오.
   ① 식당 지배인 – 종업원
   ② 도서관 사서 – 지역 주민
   ③ 제과점 주인 – 손님
   ④ 컴퓨터 수리 기사 – 고객
   ⑤ 방과 후 수업 교사 – 학생

6. 대화를 듣고, 그림에서 대화의 내용과 일치하지 않는 것을 고르시오.

7. 대화를 듣고, 여자가 남자에게 부탁한 일로 가장 적절한 것을 고르시오.
   ① 선택 관광 추가하기
   ② 예약 인원 변경하기
   ③ 계약금 환불해 주기
   ④ 관광 명소 추천하기
   ⑤ 이메일 재발송하기

8. 대화를 듣고, 남자가 운동하러 가지 못하는 이유를 고르시오.
   ① 감기에 걸려서
   ② 고객을 만나야 해서
   ③ 발표 준비를 해야 해서
   ④ 체육관이 공사 중이어서
   ⑤ 동료와 식사를 해야 해서

9. 대화를 듣고, 남자가 지불할 금액을 고르시오. [3점]
   ① $270 ② $280 ③ $290 ④ $300 ⑤ $330

10. 대화를 듣고, 과학 시험에 관해서 두 사람이 언급하지 않은 것을 고르시오.
    ① 실시 날짜 ② 문제 유형 ③ 문항 개수
    ④ 진행 시간 ⑤ 시험 범위

11. 불사참봉에 관한 다음 내용을 듣고, 일치하지 않는 것을 고르시오.
    ① 다음 주 일요일에 하게 된다.
    ② 봉사자들은 결승선 구역에 배치된다.
    ③ 마라톤 참가자들에게 물과 음식을 나눠 주는 일이다.
    ④ 예상 활동 시간은 약 네 시간이다.
    ⑤ 봉사자들은 거북이가 그려진 모자를 받는다.
12. 다음 표를 보면, 대화를 듣고 여자가 선택한 다이어리의 품질을 고르십시오.

13. 대화를 듣고, 여자의 마지막 말에 대한 남자의 응답으로 가장 적절한 것을 고르십시오. [3점]

Man:
① Great. I’m proud of you for being so generous.
② Actually, I would like to open a new bank account.
③ Sure. The camping trip was full of exciting events.
④ But raising money to help elderly people is not easy.
⑤ No. There are many charities for children in the world.

14. 대화를 듣고, 남자의 마지막 말에 대한 여자의 응답으로 가장 적절한 것을 고르십시오.

Woman:
① You aren’t allowed to use a cell phone during the contest.
② You can record your practice to check your problems.
③ You don’t have to make too many friends online.
④ You need to finish writing your script first.
⑤ You should choose an easier topic.

15. 다음 상황 설명을 듣고, Eric이 Sarah에게 할 말로 가장 적절한 것을 고르십시오. [3점]

Eric: Sarah,
① I want you to respect her feelings.
② you need to clean the room more often.
③ I believe it’s better to rearrange your furniture.
④ you should tell her about your concerns frankly.
⑤ I doubt she might suffer from your carelessness.

16. 남자가 하는 말의 주제로 가장 적절한 것은?
① physical benefits of doing chores
② how to enhance creativity of children
③ ways of doing chores in an efficient way
④ the necessity of keeping a room organized
⑤ the importance of having children do chores

17. 언급된 일이 아닌 것은?
① 설거지하기 ② 가족 친소하기 ③ 꽃에 물 주기
④ 쓰레기 버리기 ⑤ 학대하기

18. 다음 글의 목적으로 가장 적절한 것은?

Dear Mr. Luckman,
A few weeks ago I bought a decorative bowl manufactured by your company. Although it makes a beautiful centerpiece for my table, I noticed on the enclosed information leaflet that the bowl gives off harmful chemicals when microwaved. I think that many customers are unaware of the danger of chemical poisoning. Knowing how dangerous chemical poisoning is, I think it’s important that you adequately warn customers not to microwave the bowl. I suggest that you use bold print on the outside of the box. Clarify that the notice of harmful chemicals is a warning, not just a characteristic of the clay. Please consider this so that unnecessary poisoning does not occur.

Sincerely,
Andy Rooney

19. 다음 글에 드러난 Matt Brown의 심경으로 가장 적절한 것은?

Early in his career as a pilot, Matt Brown was flying a twin–engine plane northeast out of Harlingen, Texas, when he noticed a drop in oil pressure in his right engine. He was alone, flying through the night at eleven thousand feet. He reduced altitude and kept an eye on the oil gauge, hoping to fly as far as a planned fuel stop in Louisiana, where he could service the plane, but the pressure kept falling. Matt has been messing around with piston engines since he was old enough to hold a wrench, and he knew he had a problem. If he let the oil pressure get too low, he risked the engine’s stopping. How much further could he fly before shutting it down? What would happen when he did? He breathed heavily and felt the dreadful cold sweat running down his back.

① calm and relieved ② proud and contented
③ bored and indifferent ④ nervous and horrified
⑤ ashamed and regretful
20. 다음 글에서 필자가 주장하는 바로 가장 적절한 것은?

Like cross-training, cross-eating adds needed variety to your life—in this case, nutritional variety. Existing on a few dietary staples like bagels, bananas, and energy bars may leave you short on the fiber, vitamins, and minerals that are crucial for health. You should expand your nutrient repertoire. You can do this by trying a new food each week, or by getting in the habit of sampling new grains or pasta dishes at your local grocery store. Go for more variety at each meal by, for example, including two steamed vegetables and two grain foods (like rice and whole-grain bread) instead of a single source of each. Having more foods at each meal will also help control portion sizes, which may keep you from overloading on fat or sodium from one particular food.

① 여러 가지 영양소를 섭취하기 위해 식단을 다양화하라.
② 지방이나 나트륨이 많이 함유된 음식을 가급적 피하라.
③ 한 번에 과식하기보다는 조각별 여러 번 식사를 하라.
④ 영양 균형을 위해 가공식품의 과.lists 섭취를 피하라.
⑤ 건강을 위해 규칙적인 식사와 운동을 생활화하라.

21. 다음 글의 요지로 가장 적절한 것은?

Guiding students’ progress through the math curriculum in a way that promotes successful, long-term learning and positive math attitudes requires paying attention to their different levels of achievable challenge and different learning strengths. Through this construct, students become engaged and open to acquiring the skills they need to progress to the next level. Individualized achievable challenge connects students to knowledge by communicating high expectations, confirming that they have the capacity to reach these goals, and showing them how to access the tools and support they need to reach goals they consider desirable. By engaging students and ensuring that they succeed frequently, we empower those who have math negativity by providing a sense of their growing knowledge of and appreciation for math.

① various ways to improve working conditions
② changes in the perception of work over time
③ efforts to raise awareness about workers’ rights
④ influences of the working class on modern society
⑤ relationships between working hours and productivity

22. 다음 글의 주제로 가장 적절한 것은?

Work was once seen as human penance for evil beginnings in the Garden of Eden. Over the years, as socioeconomic classes arose in society in the Middle Ages, work began to be seen as the curse of the poor. The wealthy in society did all they could to avoid labor, perhaps except for war, which was seen as noble. Eventually enlightened philosophers such as St. Thomas Aquinas and his contemporaries taught that work was important, especially if we used our surplus to help others. Their teachings influenced reformers such as Martin Luther, who explained that work was virtuous if we had integrity and were honest in our dealings with our fellow men. Later, as America and Canada expanded into new territories, work in contemporary society was described as a privilege of the free. Then, as we entered the 1900s, Henry Ford and other industrialists convinced us that work led to progress for our society and our families.

23. 다음 글의 제목으로 가장 적절한 것은?

Becoming indispensable can be as much about how you work as what you produce. Many employees believe they will receive the recognition they desire by attacking their work with a singular vision. They are driven with laser-beam focus, believing this will help them create optimal results that will showcase their talents and impress those at the top. But when you do this, something important is missing. A narrow focus tends to produce narrow results only valuable to your little corner of the company. The most successful employees are not those who focus solely on their own work. They are those who maintain a broader focus, keeping their tasks in line with what’s most important to the company and its future. Producing through the lens of the bigger picture will make your work seem larger than life, while work produced with a narrow focus is usually dismissed as “typical.”

Meditation Class
Relieve your stress and create a sense of lasting peace!
This class is suitable for both beginners and experienced meditators.

• Class Schedule
- This four-week class will start from May 2.
  (7:00 p.m. – 8:30 p.m., Monday through Friday)

• Tuition & Class Size
- No tuition (supported by the local government)
- A maximum of 30 people

• Notice
- Please bring your own yoga mat to class as we don’t provide any.
- No special clothing is required.
- Register at our website, www.meditationcool.com

Avana Park Bake Off
Join our seventh annual baking contest and show off your baking skills.
Saturday, May 14, 2016, 2 p.m. – 4 p.m. at Avana Park
Judging will be based not only on taste but also on creativity.
Prizes will be given to the top three cakes.
1st prize: a kitchenware set
2nd prize: a coffeepot
3rd prize: a cookbook

• The entry fee is $20 per contestant.
• Entries are limited to one cake per contestant.
• Public cake tasting will begin at 5 p.m.
• All proceeds will be donated to Avana House, the local charity that helps homeless people in the community.

For more information, please visit www.avanapark.org

We all want to believe that our brains sort through information in the most rational way. On the contrary, countless studies show that there are many weaknesses of human reasoning. Common weaknesses in reasoning exist across people of all ages and educational backgrounds. For example, confirmation bias is ubiquitous. People pay attention to information that supports their viewpoints, while ignoring evidence to the contrary. Confirmation bias is not the same as being stubborn, and is not constrained to issues about which people have strong opinions. Instead, it acts at a subconscious level to control the way we gather and filter information. Most of us are not aware of these types of flaws in our reasoning processes, but professionals who work to convince us of certain viewpoints to study the research on human decision making to determine how to exploit our weaknesses to make us more susceptible to their messages.

With a power gap, the more hierarchical your culture or background, the greater the power gap is apt to be. This is because hierarchical cultures decrease/reinforce the differences between managers and employees. If you tend to be more hierarchical in your orientation, you tend to put those in positions of authority at a higher level, and there is more respect for that status or position, divorced even from the person who occupies it. Distance/friendliness is seen as good if you have a hierarchical preference. It wouldn’t be proper for a manager to be too familiar with his employees. The effect is that any power gap that exists is magnified through the lens of this dimension. A greater power gap can result in decreased communication as well as increased misunderstandings and conflict, potentially leading to missed/unlimited opportunities for building significant business and career relationships.

We can use our resources to satisfy only some of our wants, leaving many others unsatisfied. We are forever forced to make choices. While working at the cash register in a shop, a young college student saw an elderly couple come in with their granddaughter in a wheelchair. The cashier looked closely at the child: she had no arms or legs. As the couple wheeled her up to the counter, the college student turned her head toward the girl and gave her a wink. As she took the money from the child’s grandparents, she looked back at the girl, who gave her a beaming smile. All of a sudden the child’s disability was gone and all the young student saw was this beautiful girl: her smile was breathtaking and gave the college student a completely new sense of life. She took the young cashier from being an unhappy college student into her world of smiles, love, and warmth. Several years later as a successful business person, the once unhappy college student remembered the remarkable lesson about life that the child taught her that day.

30. 밑줄 친 부분이 가리키는 대상이 나머지 넷과 다른 것은? [3점]

31. If we can’t have everything we want today, what do we do? We are forced to make choices. We must choose some goods and services and not others. Sometimes this kind of choosing can be visibly painful. Have you ever watched children in a toy store with a gift certificate in hand? It can take them all day before they make a choice. And instead of bubbling with excitement over the toy they bought, they usually appear frustrated over not being able to walk away with everything! Life is like that. Scarcity governs us. Because we cannot have everything all at once, we are forever forced to make choices. We can use our resources to satisfy only some of our wants, leaving many others unsatisfied. [3점]

32. Establishing protected areas with intact ecosystems is essential for species conservation. It is, however, shortsighted to rely solely on protected areas to preserve biodiversity. Such reliance can create a paradoxical situation in which species and ecosystems inside the protected areas are preserved while the same species and ecosystems outside are allowed to be damaged, which in turn results in __________. This is due in part to the fact that many species must migrate across protected area boundaries to access resources that the protected area itself cannot provide. In India, for example, tigers leave their protected areas to hunt in the surrounding human-dominated landscape. In general, the smaller the protected area, the more it depends on unprotected neighboring lands for the long-term maintenance of biodiversity. Unprotected areas, including those immediately outside protected areas, are thus crucial to an overall conservation strategy. [3점]

Our kitchens owe much to the brilliance of science, and a cook experimenting with mixtures at the stove is often not very different from a chemist in the lab: we add vinegar to red cabbage to fix the color and use baking soda to counteract the acidity of lemon in the cake. It is wrong to suppose, however, that it is something more basic and older than this. Not every culture has had formal science—a form of organized knowledge about the universe that starts with Aristotle in the fourth century BC. The modern scientific method, in which experiments form part of a structured system of hypothesis, experimentation, and analysis is as recent as the seventeenth century; the problem-solving technology of cooking goes back thousands of years. Since the earliest Stone Age humans cut raw food with sharpened flints, we have always used invention to devise better ways to feed ourselves. [3점]

34. 다음 글의 빈칸 (A), (B)에 들어갈 말로 가장 적절한 것은?

For any product, the last step of the recycling process is selling the new product. Unfortunately, it can be hard to find markets for some types of recyclables. Plastic companies generally prefer new plastic, (A), because it is of more consistent quality than recycled plastic. The new plastic is guaranteed to be free of incompatible polymers—the chemical from which plastics are made—that sometimes are mixed in when the plastic is not sorted well before recycling. Manufacturers say it is also easier to control the color of plastics that have no recycled content, (B), paper manufacturers complain that recycled paper often gets dirty during collection and sorting. The added expense of cleaning the paper makes it too expensive to use for some purposes.

(A) (B)
① for instance ..... Instead
② for instance ..... Similarly
③ therefore ..... In contrast
④ however ..... Moreover
⑤ however ..... In short

35. 주어진 글 다음에 이어질 글의 순서로 가장 적절한 것을 고르시오.

Who could deny that the human body is a miracle? Imagine: each of us is safely housed within a bundle of blood, bone, and guts nurturing a little glow of life while suspended in a sea of constant change and danger.

(A) In other words, traditional housing approaches were specific to the culture, climate, and environment. Consider the igloo, a building using the thermal mass of ice to enclose heat and resist snow, or the ancient Egyptians’ ventilation domes that produced interior cooling amid burning desert heat.

(B) Housing, likewise, originally developed slowly within particular human cultures and in response to specific climates and environments. Each culture around the world crafted a unique style of housing from the fabric of their surroundings.

(C) The miracle becomes even more amazing when you consider the long, slow, evolutionary process of give and take that produced the human body. Our bodies developed with nature, within it, as part of it, over time.

① (A) − (C) − (B) ② (B) − (A) − (C)
③ (B) − (C) − (A) ④ (C) − (A) − (B)
⑤ (C) − (B) − (A)

36. Adolescence is a stage of development in which teens have superb cognitive abilities and high rates of learning and memory because they are still riding on the heightened synaptic plasticity of childhood.

(A) This means a little bit of stimulation to a teenage brain whose synapses are firing all over the place leads to wanting more stimulation that can, in certain situations, result in a kind of overlearning. The more commonly known name for this overlearning is addiction.

(B) These abilities give them a distinct advantage over adults, but because they are so primed to learn, they are also extremely vulnerable to learning the wrong things. How does this happen?

(C) It is all because the brain wants rewards and anything that is learned, good or bad, that stimulates the production of dopamine is interpreted by the brain as a reward.

* synaptic plasticity: 시냅스 가소성 ** primed: 준비가 되어 있는

① (A) − (C) − (B) ② (B) − (A) − (C)
③ (B) − (C) − (A) ④ (C) − (A) − (B)
⑤ (C) − (B) − (A)
37. But if you poured a small bucket of water into the line first, the empty space was quickly eliminated, enabling the water to flow with less effort.

Undoing a negative tie begins with giving up something of value rather than asking for a "fair trade." If you give and then ask for something right away in return, you don’t establish a relationship: you carry out a transaction. ① When done correctly, reciprocity is like getting the pump ready. ② In the old days, pumps required lots of effort to produce any water. ③ You had to repeatedly work a lever to eliminate a vacuum in the line before water could flow. ④ Reciprocity with a rival works in much the same way. ⑤ Reflect carefully on what you should give and, ideally, choose something that requires little effort from the other party to reciprocate.

38. In a different paradigm, human health and ecological survival would be paramount, and industrial activities that undermine these goals would be prohibited outright.

Unfortunately many organizations and political leaders working to improve environmental and social conditions operate unquestioningly from within the paradigm. (①) However, to paraphrase Einstein, problems cannot be solved from within the same paradigm in which they were created. (②) A good example is the cap and trade approach to reducing greenhouse gas emissions. (③) In this scenario, private companies are permitted to sell their "right" to pollute to other companies, which can then pollute more, in the belief that the free hand of the market will find the most efficient opportunities for greenhouse gas reductions. (④) But viewing pollution as a "right" and relying on the market to solve environmental problems reinforces the very paradigm that got us into this mess. (⑤) The right to clean air and a healthy climate would win over the right to pollute. [3점]

39. 다음 글에서 전체 흐름과 관계 없는 문장은?

Not until the rise of ecology at the beginning of the twentieth century did people begin to think seriously of land as a natural system with interconnecting parts. ① A century earlier, Thomas Jefferson had vigorously promoted an orderly division of the American land, beginning with the Northwest Territory. ② Surveyors were sent forth to draw rectangular grids on the land, dividing the wilds into counties, townships, and ultimately homesteads, with little concern for terrain or other natural features. ③ They adopted the environmentally friendly system even though they did not see a profit in it. ④ That system had its virtues, but in time ecology made the lines appear artificial. ⑤ As some observers would come to see it, the rectangular grid system caused as much harm as it did good.

* homestead: 정부 공여 농지

40. 다음 글의 내용을 한 문장으로 요약하고자 한다. 빈칸 (A)와 (B)에 들어갈 말로 가장 적절한 것은? [3점]

Mitterer and de Ruiter used a color categorization paradigm to study the relationship between "world knowledge" and color categories. First, half of the observers saw typically orange objects (e.g., carrot) in a good orange and typically yellow objects (e.g., banana) in a hue midway between orange and yellow. The other half saw typically orange objects in the intermediate hue and typically yellow objects in a good yellow. Later, observers were asked to categorize a color-neutral object (e.g., sock) colored somewhere between yellow and orange as either yellow or orange. The researchers found that if the observers had seen typically yellow objects in the intermediate hue, this hue was subsequently categorized as yellow. The reverse was true for the observers who had seen typically orange objects in the intermediate hue.

After observers were (A) exposed to a typically yellow or orange object in an intermediate hue, they thought the intermediate hue of a color-neutral object (B) matched the category of the previous object’s typical color.

(A) (B)
① exposed to ...... matched
② exposed to ...... narrowed
③ distracted by ...... contradicted
④ reminded of ...... determined
⑤ reminded of ...... changed

The overabundance of available storage capacity makes it easy for us to shift our behavioral default regarding external memory from forgetting to remembering. We save different versions of the documents we are working on to our hard disks. And we store images and music files, on the assumption that perhaps some day we might need them. Storing information has become fantastically convenient, but it’s more than convenience that makes us preserve. The truth is that the economics of storage have made forgetting brutally expensive. Consider digital cameras: When you connect your camera to your computer to upload the images you took onto your hard disk, you are usually given a choice. You can either select which images to upload, or have your computer copy automatically all images from your camera. Reassured perhaps by the soothing idea that one can always go through them later and delete the images one does not like, invariably most people choose the latter option. Economically speaking, this makes sense. Assuming it takes only three seconds for a person to look at an image and decide whether to preserve it or not, and that she values her own time at a current average wage, the "cost" of the time alone that it takes to decide _____________________________ the cost of storage. With such an abundance of cheap storage, it is simply no longer economical to even decide whether to remember or forget. Forgetting—the three seconds it takes to choose—has become too expensive for people to use.

41. The overabundance of storage capacity makes it easy for us to shift from forgetting to remembering. We save versions of our work to our hard disks. And we store images and music files, with the assumption that someday we might need them. Storing information in this convenient way has made forgetting costly. Consider digital cameras: When you connect your camera to your computer to upload the images you took, you are usually given a choice. You can either select which images to upload, or have your computer copy all images automatically. Having the convenience of never having to delete images that you don’t like makes sense economically. Assuming it takes only three seconds for a person to look at an image and decide whether to preserve it or not, and that she values her own time at her current wage, the "cost" of the time alone that it takes to decide _____________________________ the cost of storage. With such an abundance of cheap storage, it is simply no longer economical to even decide whether to remember or forget. Forgetting—the three seconds it takes to choose—has become too expensive for people to use.

42. The overabundance of storage capacity makes it easy for us to shift from forgetting to remembering. We save versions of our work to our hard disks. And we store images and music files, with the assumption that someday we might need them. Storing information in this convenient way has made forgetting costly. Consider digital cameras: When you connect your camera to your computer to upload the images you took, you are usually given a choice. Forgetting—the three seconds it takes to choose—has become too expensive for people to use.

43. As Angela described her situation, Julia noted that there was little enthusiasm in her voice. So the first thing _____________________________ decided to do was to help Angela increase the fun in her life. Julia asked her if there were any fun things she would like to do. Angela mentioned that for a long time she had wanted to get back into acting, which she used to do in college. As ___________ she talked about her acting experiences, she spoke enthusiastically and Julia felt it was like watching an entirely different person.

44. Now Angela realized that she wanted to work in a setting where she could interact with many different types of people in a fun, supportive way. This, she saw, was unlikely to occur in the legal profession. After exploring many possibilities, Angela ended up becoming a drama teacher at a high school. She has found that ___________ she no longer needed to be a "zombie" at work. She is now free to let her enthusiastic personality come out.

45. The overabundance of storage capacity makes it easy for us to shift from forgetting to remembering. We save versions of our work to our hard disks. And we store images and music files, with the assumption that someday we might need them. Storing information in this convenient way has made forgetting costly. Consider digital cameras: When you connect your camera to your computer to upload the images you took, you are usually given a choice. You can either select which images to upload, or have your computer copy all images automatically. Having the convenience of never having to delete images that you don’t like makes sense economically. Assuming it takes only three seconds for a person to look at an image and decide whether to preserve it or not, and that she values her own time at her current wage, the "cost" of the time alone that it takes to decide _____________________________ the cost of storage. With such an abundance of cheap storage, it is simply no longer economical to even decide whether to remember or forget. Forgetting—the three seconds it takes to choose—has become too expensive for people to use.

41. 위글의 제목으로 가장 적합한 것은?
   ① Save Selectively, Save Your Effort!
   ② Cheap Storage Drives Us to Keep It All
   ③ How to Cope with Financial Difficulties
   ④ Benefits of Deleting Your Online History
   ⑤ Why Is Time More Precious than Money?

42. 위글의 빈칸에 들어갈 말로 가장 적합한 것은? [3점]
   ① follows ② creates ③ balances ④ exceeds ⑤ eliminates

43. 주어진 글 (A)에 이어질 내용을 순서에 맞게 배열한 것으로 가장 적절한 것은?
   ① (B) - (D) - (C) ② (C) - (B) - (D) ③ (C) - (D) - (B) ④ (D) - (B) - (C) ⑤ (D) - (C) - (B)

44. 밑줄 친 (a) ~ (e) 중에서 가리키는 대상이 나머지 넷과 다른 것은?
   ① (a) ② (b) ③ (c) ④ (d) ⑤ (e)

45. 위글의 Angela에 관한 내용과 일치하지 않는 것은?
   ① 한 회사의 법률 분석가로 일했다.
   ② 법률 서적 읽는 것을 즐겼었다.
   ③ 연극 공연을 홍보하는 이메일을 동료에게 보냈다.
   ④ 대학 시절에 연기를 했다.
   ⑤ 고등학교 연극 교사가 되었다.
