Chris: I’ve also heard about the Alhambra palace. It’s one of the greatest architectural wonders of Spain, isn’t it?
Grace: Yes, that’s right. It was built in the 13th century and is now a UNESCO World Heritage Site.

On the first day of our trip, we took a little cruise. It was a cruise on Yellow Water, which has a variety of wild animals, dramatic scenery, and ever-changing landscapes. We spotted more than twenty different species of birds and tamed crocodiles in the river. Until this trip, I had only seen crocodiles in the zoo, so the sight of wild crocodiles made my jaw drop.

The second day at Kakadu National Park was all about exploring Aboriginal rock art. The paintings of animals provide a fascinating record of Aboriginal life over thousands of years. Our guide told us that some of the oldest rock arts might be as much as 40,000 years old. We were impressed by the well preserved rock paintings. Also, some Aboriginals are still living in Kakadu and keep their cultural traditions. After the trip, I learned to appreciate the beauty of nature and old traditions. Our next destination is Canberra, the capital city of Australia. I’ll keep you posted about my trip.

In front of the palace, there was a beautiful garden called Generalife. I was totally amazed by the incredible scenery.
