[16 ~ 17] 다음을 듣고, 물음에 답하십시오.

W: Hello, class! Last time we learned about LED technology. I hope all of you have a clear idea of what an LED is now. Today, I'll talk about how LEDs make our lives better. First, one of the advantages of LEDs is the long lifespan. LED bulbs are used in lamps and last for over 17 years before you need to change them. Second, LEDs use very low amounts of power. For example, a television using LEDs in its backlight saves a lot of energy. Next, LEDs are brighter than traditional bulbs. So, they make traffic lights more visible in foggy conditions. Finally, thanks to their small size, LEDs can be used in various small devices. Any light you see on a computer keyboard is an LED light. Now, let's think about other products that use LEDs.

다시 한 번 들겠습니다.
