

Course at a Glance

Plan

The course at a glance provides a useful visual organization of the AP Physics C: Electricity and Magnetism curricular components, including:

- Sequence of units, along with approximate weighting and suggested pacing. Please note, pacing options are provided for teaching the course in a single semester or a full year.
- Progression of topics within each unit.
- Spiraling of the big ideas and science practices across units.

Teach

SCIENCE PRACTICES

Science practices are spiraled throughout the course.

1 Visual Representations	4 Data Analysis
2 Question and Method	5 Theoretical Relationships
3 Representing Data and Phenomena	6 Mathematical Routines
	7 Argumentation
