

**3GPP2 C.R0014-B**

**Version 1.0**

**Date: January, 2007**

**3RD GENERATION  
PARTNERSHIP  
PROJECT 2  
"3GPP2"**

## ***Software Distribution for Enhanced Variable Rate Codec (EVRC), Speech Service Options 3 and 68, Specification***

### ***COPYRIGHT***

*3GPP2 and its Organizational Partners claim copyright in this document and individual Organizational Partners may copyright and issue documents or standards publications in individual Organizational Partner's name based on this document. Requests for reproduction of this document should be directed to the 3GPP2 Secretariat at [secretariat@3gpp2.org](mailto:secretariat@3gpp2.org). Requests to reproduce individual Organizational Partner's documents should be directed to that Organizational Partner. See [www.3gpp2.org](http://www.3gpp2.org) for more information.*

1

**NOTICE**

2 Each of the companies; Motorola, and Lucent, and Qualcomm, and Nokia (hereinafter  
3 referred to individually as "Source" or collectively as "Sources") do hereby state:

4 To the extent to which the Source(s) may legally and freely do so, the Source(s), upon  
5 submission of a Contribution, grant(s) a free, irrevocable, non-exclusive, license to the Third  
6 Generation Partnership Project 2 (3GPP2) and its Organizational Partners: ARIB, CCSA,  
7 TTA, TTA, and TTC, under the Source's copyright or copyright license rights in the  
8 Contribution, to, in whole or in part, copy, make derivative works, perform, display and  
9 distribute the Contribution and derivative works thereof consistent with 3GPP2's and each  
10 Organizational Partner's policies and procedures, with the right to (i) sublicense the foregoing  
11 rights consistent with 3GPP2's and each Organizational Partner's policies and procedures  
12 and (ii) copyright and sell, if applicable) in 3GPP2's name or each Organizational Partner's  
13 name any 3GPP2 or transposed Publication even though this Publication may contain the  
14 Contribution or a derivative work thereof. The Contribution shall disclose any known  
15 limitations on the Source's rights to license as herein provided.

16 When a Contribution is submitted by the Source(s) to assist the formulating groups of 3GPP2  
17 or any of its Organizational Partners, it is proposed to the Committee as a basis for discussion  
18 and is not to be construed as a binding proposal on the Source(s). The Source(s) specifically  
19 reserve(s) the right to amend or modify the material contained in the Contribution. Nothing  
20 contained in the Contribution shall, except as herein expressly provided, be construed as  
21 conferring by implication, estoppel or otherwise, any license or right under (i) any existing or  
22 later issuing patent, whether or not the use of information in the document necessarily  
23 employs an invention of any existing or later issued patent, (ii) any copyright, (iii) any  
24 trademark, or (iv) any other intellectual property right.

25 With respect to the Software necessary for the practice of any or all Normative portions of  
26 the EVRC Variable Rate Speech Codec as it exists on the date of submittal of this form,  
27 should the EVRC be approved as a Specification or Report by 3GPP2, or as a transposed  
28 Standard by any of the 3GPP2's Organizational Partners, the Source(s) state(s) that a  
29 worldwide license to reproduce, use and distribute the Software, the license rights to which  
30 are held by the Source(s), will be made available to applicants under terms and conditions  
31 that are reasonable and non-discriminatory, which may include monetary compensation, and  
32 only to the extent necessary for the practice of any or all of the Normative portions of the  
33 EVRC or the field of use of practice of the EVRC Specification, Report, or Standard. The  
34 statement contained above is irrevocable and shall be binding upon the Source(s). In the  
35 event the rights of the Source(s) in and to copyright or copyright license rights subject to  
36 such commitment are assigned or transferred, the Source(s) shall notify the assignee or  
37 transferee of the existence of such commitments.

1

**FOREWORD**

2 This technical database forms the Software Distribution in support of the Specification for  
3 the Enhanced Variable Rate Codec (EVRC), Speech Service Options 3 and 68, a variable-  
4 rate two-way speech service option.

5 This Software Distribution does not directly address the quality or reliability of Service  
6 Options 3 and 68, nor does it cover equipment performance or measurement procedures.

1     **REFERENCES**

2     The following standard contains provisions, which, through reference in this text,  
3     constitute provisions of this Software Distribution. At the time of publication, the editions  
4     indicated were valid. All standards are subject to revision, and parties to agreements based  
5     on this Software Distribution are encouraged to investigate the possibility of applying the  
6     most recent editions of this Software Distribution and the standard indicated below. ANSI  
7     and TIA maintain registers of currently valid national standards published by them.

8

9     — *Referenced Standard:*

10    3GPP2 C.S0014-B Ver 1.0, *Enhanced Variable Rate Codec, Speech Service Options 3 and 68*  
11    *for Wideband Spread Spectrum Digital Systems, May, 2006.*

12

1 **1 SOFTWARE DISTRIBUTION: ENHANCED VARIABLE RATE CODEC,**  
2 **SERVICE OPTIONS 3 AND 68, SPECIFICATION**

3

4 **1.1 General Description**

5 This software distribution is in long filename format and will need to be initially  
6 downloaded, and the appropriate portions subsequently transferred to an appropriate  
7 platform for processing, depending on the software distribution contents. If the  
8 distribution is downloaded as zip files from an ftp site, a free 7.6-MB space will be required:  
9 1.8 MB for the zip files and 5.8 MB for the unzipped distribution directory. The utilization  
10 of this software database is described in the parent referenced document[1].

11 **1.2 EVRC Specification Software Distribution**

12 The Software Distribution supporting the referenced Enhanced Variable Rate Codec  
13 Specification is contained in the zip files accompanying this textual cover  
14 (Software\_Distribution\_vB-1.0\_for\_C.S0014-B\_v1.0.zip).
